

BROADWAY

Longest Running businesses celebrating 25 years or more.

For many businesses, surviving these tough economic times is a goal in itself. Thinking about a quarter century in business at one location more like dreaming for most. And location is an important reason behind the long list of businesses running on Broadway in Fair Lawn celebrating 25 years or more of service to local residents and visitors to the Broadway Special Improvement District (BSID).

Why have so many diverse business owners and investors found their niche on Broadway?

Easy Access and great visibility from the busy Bergen County road network that keeps Broadway connected to local diners and visitors from other towns. The convenience of free parking for customers and employees adds to the district's appeal.

Affordability with many local commercial property owners instead of absentee landlords, Broadway offers affordable rents plus better communication and cooperation between property and business owners.

Advocacy A wide range of programs and support services provided by a managed business district including advocacy and assistance in opening a new business on Broadway, free technical advice, façade and signage improvement programs plus grants and lower interest loans.

Advertising Marketing and advertising programs that highlight individual businesses on Broadway and promote the district as a desirable destination for customers from Fair Lawn and surrounding communities.
